CONGRATULATIONS

November 24, 2014

Dear Fellow Colleagues of the German Medical Women's Association;

On behalf of the Medical Women's International Association, it gives me great pleasure to extend congratulations to the German Medical Women's Association on your 90th anniversary.

Such milestone anniversaries give us the opportunity to celebrate those women physicians who had the foresight to advance the cause of women in medicine so many years ago. Although women now make up 50 % or more of medical school classes, our work is not done. Very few women reach the top leadership positions in medicine. It is important that we teach women physicians the leadership skills and empower them to lead the profession.

MWIA looks forward to meeting our German colleagues at various regional meetings this triennium and then at the international congress in Vienna in 2016. Once again, congratulations!

Sincerely,

Shelley Ross, MD, Secretary General
Medical Women's International Association
